Charles Parsley informed Miller that there is a grant that could be applied for to purchase the truck. Pavey said he thought it would be wise to approve the purchase of a chipper and try to get on the grant program for the truck. Cameron made a motion to proceed with either option 2 or 3 for the purchase of a chipper, whichever the Mayor determines to be the best option. Smith seconded the motion. Motion carried.

3. **ServLine – Les Day** – Les Day said the Utility Board wished to revisit the ServLine program. He said there are 3 different programs they would like to implement. The first would be the water loss protection program. All customers would automatically be enrolled in the program for $1.00 per month with the option that they may opt out if they wish. This program would prevent the customer from paying a large bill if they had a leak. However, if the customer decided to opt out of the program they would not be refunded if they had a leak and were not on the program.

   The water line protection program would cost $5.00 per month and would cover leaks from the meter to the residence. To take part in this program the customer would have to opt in. They would not automatically be put on the program. It would cover up to
$10,000.00.

The third program is the sewer line protection program. The cost is $7.00 per month up to $10,000.00. The program is also an opt in only program. The customer would not automatically be placed on the program. The Utility Board has given their approval to move forward with the program. Day said the next step is to send out flyers to the customers. The charges would be itemized on the utility bill. The customer would receive a policy from ServLine for the programs. Smith made a motion to move forward with the ServLine programs for city residential customers. Conner seconded the motion. Motion carried.

4. Design Build Concept – City Center – Mayor Pavey said he met with a design build firm for consideration for the City Center project. He said we would need to send out for RFPs. He said this would provide us with more control. Bridges made a motion to move forward with RFPs. Cameron seconded the motion. Motion carried.

5. Potential Disposal of Publicly Owned Property (Fire Farm) – Mayor Pavey said he would like to have conversation regarding the potential disposal of this property. He said we would need to have a public hearing to begin the process. Conner said he would like to slow down the process. Smith said we should go ahead and advertise for cash rent. Councilman Smith said he would hate to see the land sold, but this was part of the formula for the stellar funding. Mayor Pavey said it is his opinion that we will not grow by owning farm land. This property is north of the railroad tracks. Councilman Conner said it is sad that this was willed to the fire department in good faith and now we are considering selling it. Pavey said the use is for a bigger vision. The appraised value of farm land is going down. Smith said we have to use the resources we have. Smith said we need to do our due diligence up front. It was the consensus of Council to give notice of a public hearing for the next meeting.

Claims & Monthly Bank Reconcilement: Bridges moved to approve the claims and the January bank reconcilement as presented. Conner seconded the motion. Motion carried.

ITEMS NOT KNOWN IN ADVANCE: Councilman Smith said he received a phone call regarding the demographic survey for grant funding. He said he would not answer the survey questions. Pavey said this information was needed for grants for OCRA. Smith said this was misleading because it led people to believe that this would lower their water bills.

Councilman Cameron said if any of the Council was in favor of HOTIF to get with him to sign a letter.

ADJOURN: There was no further business to come before Council; Berkemeier made a motion to adjourn. Conner seconded the motion. The meeting adjourned at 7:08 p.m.
